MISSION

.devClub is the **largest student-run software development club** in **Manitoba, Canada**. Founded in **2014**, we connect **hundreds of members** around a shared passion for technology.

For over a decade, our initiatives have helped students **bridge classroom knowledge** to **industry-sought skillsets**. Our flagship event, **.devHacks**, is one of the **largest hackathons in Western Canada**, drawing students of all skill levels to build their dream project: **300** of which showed up for **.devHacks 2026**. Alumni who built their first project at .devHacks have gone on to work at Winnipeg names like **Niche Technology**, **G3 Canada Ltd.**, and **Payworks**, as well as global powerhouses like **Google** and **Amazon**—a direct pipeline from campus talent to industry-ready hires.

This year, we are building on that momentum: deepening and expanding **industry partnerships**, increasing **involvement** of historically **underrepresented groups in technology**, and ensuring members graduate with **industry-ready skillsets**. **.devClub** is at the **forefront** of **Manitoba's growing tech scene**, and **sponsor support** goes directly into developing the **next generation of technology talent** in the province.

IMPACT

11+ years
of dedication

100+ events
held

500+ projects
built

2,500+ alumni
members

1,400+ followers
on Instagram

50,000+ views
past 90 days

...and so much more!

COLLABORATORS

Since 2014, we've been supported by:

ACTIVITIES

Throughout the year, we will be hosting events including, but not limited to:

- Group project building sessions
- Career and internship preparation
- Learning new technology, focusing on cutting-edge APIs and AI tools
- Underrated topics (graphics, Rust, embedded, compilers, CUDA...)
- Industry panels for marginalized groups by people in the community

.devHacks 2027

.devHacks is our **annual hackathon**, attracting **hundreds of students** to the University of Manitoba annually. **.devHacks 2027** will be a **48-hour hackathon** running **February 19 to 21, 2027**, our **biggest event ever** with **400 participants** projected to attend.

Why Sponsor Us?

- **Exclusive access** to 400 of the **brightest tech talents** in Manitoba **prototyping solutions to your business problem.**
- **Direct brand expansion** to a small yet **rapidly maturing tech scene** with a **1M+ population** to **adopt your tools and APIs.**
- At a **flagship hackathon,** your booth is **one of forty.** Here, **your challenge track is one of two**, and **your recruiters get a room.**

Add Branding to Another Event	$100 / event (logo placement, verbal shoutout)

Sponsorship FAQs

Q: Are the Sponsorship Tiers only applicable to .devHacks 2027?

A: **Yes.** However, the **Workshop Hosting** perks can be used both **inside and outside of .devHacks 2027**; regardless, we will fully co-host, quality check, promote for, and support your event under .devClub's name. It does not have to be a workshop; it can be a panel, fireside chat, anything! Furthermore, the add-on **Add Branding to Other Event** is designed for our other events outside of .devHacks 2027: you can put your **logo** on and get a **verbal acknowledgement** for **any .devClub event** (with your permission). We will arrange things such that **only one brand** is acknowledged **per event**.

Q: Can we bring more representatives than indicated in the sponsor tier?

A: The **two reasons** we **have** the **maximum representatives** perk are **limited booth space** and, more importantly, **limited food budget**. The maximum representative number is the **maximum number on site** at any given time; thus, you are **free to rotate present representatives** as long as you don't exceed the limit. You can consider buying the **Extra Representative Add-On** if you need more people. Technically, we **do not restrict visitors** onsite, and so if your employees are interested they are **free to observe**: however, we **cannot give them food**, let them sit on interviews, judge projects, etc. if they aren't acknowledged as a representative.

Sponsorship FAQs

Q: What is the Platinum tier for? Why does it say ‘Contact Us’?

A: Compared to previous hackathons, we wanted the ability for sponsors to **choose a ‘Title Sponsor’** type tier. Our current **Gold** perks are **akin to previous** years’ **Platinum** perks: dedicated **sponsor track** and **stage time**. Our **new Platinum** tier brings clear **recruiting benefits** that other tiers cannot buy as add-ons: **your own private room** tended to by our volunteers that can be used for **on-site interviews**, participants’ **resume access** from the moment registration forms open, and we will even **filter resumes meeting your criteria** so your recruiters don’t have to manually sift through hundreds of resumes! Thus, we want you to **name your own price** and demands: for example, you may require **exclusivity** as the sole ‘Platinum’ sponsor.

Q: Do you accept in-kind sponsorships?

A: For **.devHacks 2027**, we are **primarily** looking for **monetary contributions**, but we are **open to in-kind sponsorships** with equivalent value to one of the listed tiers. If you are planning to sponsor using something that isn’t money, please reach out to us at **umdevclub@gmail.com** and we’ll handle requests on a **case-by-case basis**. For example, we probably will not accept cosmetics and swag in place of money, we will most likely accept food, and also API credits/subscriptions following our own judgement on how many people will actually use the credits. **Outside** of .devHacks 2027, **yes, definitely**!

Sponsorship FAQs

Q: If we are interested in sponsoring, what will the timeline be?

A: We **began** our outreach process **mid-August** and are aiming to **finalize** and invoice our **Platinum** sponsor(s) by **October 31st**; **the rest** of the sponsor slots will be **open until** two weeks before the event begins, **February 2nd**. When your **sponsor slot** is **confirmed**, you will be receiving a detailed, fully **instructive form** asking for the following (whichever is applicable): reps' details per day, booth logistics, mentorship and judging interest, Discord handles, workshops' title and preferred timings, challenge statement and its grading criteria, resume filtering criteria, interview timeslots, etc. The form will **stay open** (and we will remind you to fill it!) so you can **edit your response until February 7th**, and by **February 9th** we will send **detailed briefings** to each **individual sponsor** and the **timeline** for **all attendees**. For **Platinum** sponsors, if you had informed us of any **interview candidates** beforehand, their **timeslots** will also be provided as early as possible **before the event**. After that, prepare for your workshops and stage minutes, what you'll say when students come to your booths, interview questions if applicable, then **just come to the event on time** every day and enjoy our hospitality and food!

CONTACT

Thank you for your interest in sponsoring .devClub. Feel free to contact us for more information!
